PROFESSIONAL SUMMARY

Frontend Developer with a Computer Engineering background, specializing in creating responsive and user-centric web applications. Proficient in modern JavaScript frameworks including React.js, with a strong foundation in HTML5, CSS3, and UI/UX principles. Experienced in building performant web interfaces, state management, and integrating RESTful APIs. Skilled in version control with Git and collaborative development using Agile methodologies. Passionate about creating accessible, scalable frontend solutions and staying current with emerging web technologies.

PROFESSIONAL EXPERIENCE

Web Application Developer Intern | Corextreme Technologies, London-UK | Oct. 2024 – Nov 2024

- Develop responsive web applications using React.js, ensuring cross-browser compatibility
- Build reusable components and implement complex UI features with modern JavaScript
- Collaborate with UX designers to implement pixel-perfect, responsive designs
- Optimize frontend performance and integrate RESTful APIs for data management

Data Specialist | Kwame AI | Oct. 2023 – Jan. 2024

- Engineered data pipelines for processing large-scale datasets using Python
- Implemented automated data validation frameworks and quality checks
- Collaborated with data scientists on ML model data preparation
- Developed Python scripts for automated ETL processes
- Integrated AWS services for data storage and processing

Software Developer | Nerasol Ghana Limited | Nov. 2021 – Oct. 2022

- Architected scalable data solutions for high-traffic applications
- Developed APIs for seamless data integration between systems
- Implemented automated data collection and processing workflows
- Optimized database performance and query efficiency
- Built data monitoring and reporting systems

TECHNICAL SKILLS

- Cloud Technologies: AWS Certified Cloud Practitioner, experience with cloud services
- Programming: Python, SQL
- Database Management Systems: MySQL, PostgreSQL, Microsoft SQL Server
- Version Control: Git
- Tech Stack: JavaScript (React), Java, C# (asp.net core), PHP (Laravel), HTML, CSS
- Data Analysis: Excel, Power BI

EDUCATION AND PROFESSIONAL QUALIFICATION

Bachelor of Engineering, Computer Engineering
University of Ghana

CERTIFICATIONS & TRAINING

Web Development Training | Meltwater Entrepreneurial School of Technology (MEST) (2024)

- Frontend development with React.js and modern JavaScript
- UI/UX implementation and responsive design
- Component-based architecture and state management
- Performance optimization and best practice

AWS Certified Cloud Practitioner | AmaliTech Ghana (2024)

- Comprehensive understanding of AWS cloud architecture
- Knowledge of core AWS services including S3, DynamoDB, RedShift
- Cloud security, pricing, and deployment models

Programming for Data Science | Udacity (2020)

- Python programming for data analysis
- Advanced SQL and database management
- Data processing and visualization techniques
